

# Agostino Caruso

## JR FULL STACK WEB DEVELOPER

### About me

I started as a self-taught developer with prototypes and small game demos, developing curiosity for **software** and an aptitude for **problem-solving**. Later, I completed an intensive training program focused on web **back-end** development, working on **real projects** both independently and in a team, improving my analytical skills, code organization, and collaboration.

### Projects

#### Instagram-clone (ongoing)

- Development of an **Instagram** clone as a **full-stack** web app, featuring complete social network functionalities and a responsive interface.
- Technology stack: Java, Spring (backend), React, JavaScript (frontend), MySQL.
- Implemented features: JWT authentication, post creation with images, feed, likes and comments, follow/unfollow system, user profile.

#### GameSpot

- Development of a website for **managing** and **displaying** a game catalog, with a **backend** for administration (Admin panel) and REST APIs for the **frontend**, intended for user access.
- Technology stack: Java, Spring (backend), JavaScript, React (frontend), MySQL.
- Implemented features: game CRUD, search, authentication, responsive interface.

#### B&B

- Development of a web app in a team simulating a **Bed & Breakfast** website, focusing on the landing page and the search page with filters.
- Technology stack: JavaScript, React (frontend), MySQL (database).
- Implemented features: landing page, advanced search with filters, responsive user interface.

### Education

Boolean | 2024-2025

- **Corso Full Stack Web Developer**

It is an **intensive** 600-hour Full Stack Web Development course at Boolean, learning to develop **web applications** with HTML, CSS, JavaScript, React, and MySQL, while **specializing** in **back-end** development with Java and the Spring Framework.

University Sapienza | 2018-2020

- **Bachelor's Degree in Oriental Literature and Philosophy**

Incomplete degree

Technical Economic Institute | 2011-2016

- **AFM Diploma**

I authorize the processing of personal data contained in my curriculum vitae in accordance with Legislative Decree 196/2003, coordinated with Legislative Decree 101/2018, and with EU Regulation 2016/679 (GDPR).

### Technical Skills

Html

Css

JavaScript

Node.js

React

Java

Express

Spring

PhP(ongoing)

C(ongoing)

### Language Skills

- Italian, native language
- English, B2

### Hobby and interests

- Rugby – It has taught me fundamental values such as solidarity, mutual support, and sharing, which I strive to bring into teamwork as well.
- Technology and programming – I love exploring new technologies, trying out libraries and frameworks, and understanding how they work “behind the scenes.”
